Summary

3rd year CSE undergrad and MERN stack developer experienced in developing Scalable backend systems while consistently refining my skills in Data Structures & Algorithms (C++), competitive programming, and database systems.

Education

Government College of Engineering Amravati
B.Tech in Computer Science and Engineering

2024 – 2028
CGPA: 8.62

Technical Skills

Languages: C++, Python, JavaScript

Frameworks & Technologies: React.js, Node.js, Express, Socket.io, Tailwind CSS

Databases: MySQL, MongoDB, Redis

Tools & Platforms: VS Code, Git, GitHub, Postman, Vercel

Coursework: Data Structures & Algorithms (C++), DBMS, Object-Oriented Programming

Projects

NATTER | MERN, Redis, Cloudinary, Socket.io, JWT, PWA

[Live](#) | [GitHub](#)

End-to-End Encrypted Chatting Application

- Designed & Implemented end-to-end encryption for messages using ECDH key exchange and AES-256-GCM, with password-protected key blobs for secure key storage.
- Developed real-time chat with Socket.IO and Redis Pub/Sub for multiserver sync and offline messaging; added replies, deletion, blocking, and media sharing; tested APIs and deployed on Vercel.
- Scaled to 40+ registered users with 15+ concurrent users tracked via real-time presence, secured routes with JWT sessions (15-min access, 7-day refresh) in an installable PWA.

PYQ-HUB | EJS, Node.js, Express, MongoDB, Cloudinary, Tailwind

[Live](#) | [GitHub](#)

Centralized PYQ Platform for GCOE Amravati Students

- Categorized papers by subject, year, branch and exam type (CT, End-Sem) for structured student access.
- Integrated Multer and Cloudinary for file uploads and cloud storage, enabling cross-device delivery, tested upload and retrieval flows and deployed to production.
- Improved query performance and reduced paper retrieval time to under 2s using MongoDB compound indexes on subject, year and branch fields.
- Scaled to 400+ users with 35+ concurrent active users during peak semester exam seasons.

Achievements

- **Esperanza** : Inter-college hackathon at PRMIT&R tech fest, Selected among top 5 teams out of 100+ teams.
- **Code Clash 2.0** : Inter-college coding competition at GCOE Amravati, 2nd Runner-Up among 200+ participants.
- **Data Structures & Algorithms** : 950+ problems solved across [LeetCode](#) (400+), [HackerRank](#) (200+), [CodeChef](#) (200+), [GeeksforGeeks](#) (150+).

Leadership & Activities

- **Departmental Co-Convenor, ICAIISD 2025** (Dec 2025): Coordinated presentations and departmental activities for the 2nd International Conference on AI & Innovations for Societal Development, contributing to the successful execution of the event.
- **Committee Member, Hospitality Committee** (Dec 2024) : Global Alumni Meet (GLAM), GCOE Amravati, worked with a team of 15 handling hospitality for the event.
